

# Supreme Incursions

Engaging. Educational. Hands on.

# Primary Incursions

## Billy Carts

Use tools and hardware to create simple machines and race around our track! Younger students explore 'Tubelox' creations, whilst older students follow procedures or build a mini billy cart! We select equipment based on year level, abilities and curriculum focus.

- Forces
- Teamwork
- History & transport
- Simple machines
- Design & inventions
- STEM

## We sell Billy Cart kits

Continue the hands on learning, post incursion. Build, paint, race and auction these carts. We recommend one between four students.

**Visit [supremeincursions.com.au/shop](https://supremeincursions.com.au/shop) to purchase your Billy Cart kit!**

## Crazy Chemicals

Bring out their inner Scientist as they investigate, predict and observe states of matter and materials. Explore chemical reactions, string slime and more. Additional activities that are lighter on the 'mess' allow students to freely explore different materials in a hands on and safe way.

- Solids, liquids & gases
- Predicting
- Whole school Science days
- Reactions v's change
- Investigating
- Observations

## We sell Science class packs

Make teaching Science a breeze. Weeks of experiments, easy to follow resources, QR videos and all the equipment.

**Visit [supremeincursions.com.au/shop](https://supremeincursions.com.au/shop) to purchase your Science class pack!**

## Forces & Energy

Explore heat, magnetism and pressure while inspiring your students to love Science. Challenge students to think critically about forces and energy using innovative equipment. We also use everyday materials in 'wow' ways, making this experience relatable, accessible and safe for all.

- Forces
- Energy
- Pressure
- Predicting
- Investigating
- Observing

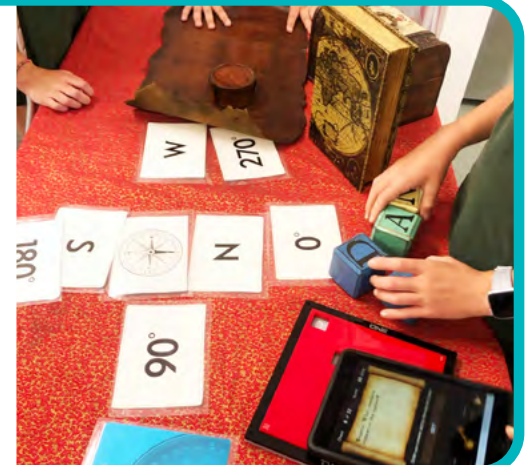

## Orienteering

Develop and enhance students' sense of direction as they navigate their way through cryptic clue hunts, puzzles and lockboxes. Students will use compasses, learn mappings, and work collaboratively in their teams to score points.

- Compass reading
- Health & PE
- Geography
- Directions & mapping
- Teamwork
- Lateral thinking

## Shelter Building

Test survival and teamwork skills by creating shelters that withstand the harshest elements! Students will design and build shelters within a budget, whilst adapting to many variables such as suitability of land, available materials, inflations and sales.

- Teamwork
- Problem solving
- Resilience
- Budgeting
- Mathematics
- Construction & design

## Team Building

Students navigate through a rotation of innovative challenges, strengthening communication, trust, problem solving, resilience, leadership skills and more. Activities are interchanged to suit different ages, abilities and goals, tailoring the equipment and reflections accordingly.

- Wellbeing
- Teamwork
- Problem solving
- Resilience
- Respect
- Leadership

## Mind & Body

Breathe and stretch your way to a calm and focused classroom! Students explore breathing techniques, the zones of regulation, and how to improve concentration and energy levels. Provide us with your classroom goals and we will tailor this experience.

- Personal growth
- Mindfulness
- Health & wellbeing
- Focus
- Resilience
- Zones of regulation

## Toys

Choose 'Toys over Time' or 'Toy Science'. Focus on historical or scientific knowledge as we adapt this session to your goals. Enjoy beautiful stories from the past, and our museum table. Encourage discovery and collaboration through play. Expect nostalgia as the students 'buzz' with excitement.

- Technological changes
- Past, present & future
- Sharing
- How toys move
- Families
- Materials

## Brickworks

This play-based learning approach incorporates design, creativity and teamwork with our large collection of building bricks. Students work together to follow a specific brief, copy existing creations, explore community dress ups, and be inspired by our very own Supreme creations.

- STEM
- 100 days of Prep
- Communities
- Sharing
- Creativity
- Teamwork

## Hip Hop

Get down with the latest moves, build confidence and dress up. Students are introduced to some basic steps whilst adding their own 'freestyle' to encourage expression and creativity. Here, it is all about the 'attitude'. There are no wrong moves, and we will get everyone dancing.

- Confidence building
- Health & wellbeing
- Expression
- Movement sequences
- Creativity
- Resilience

# World Dance

Be immersed and inspired as students explore Latin, Bollywood, African and Spanish dance steps with vibrant sounds and costumes. Watch students' confidence grow as we encourage them to step outside of their comfort zone. Celebrate cultures and create long lasting classroom memories.

- Culture
- Confidence
- Expression
- Community
- Health & wellbeing
- Creativity

## Key curriculum areas

**Science**

**Mathematics**

**Health & Wellbeing**

**Design & Technology**

**Geography**

**STEM**

**History**

**Celebrations**

Incursions are designed and adapted to your curriculum focus.

Our qualified teachers are specialists in student engagement.

Hands on exploration provides long term learning and memories.

You save time and money, we come to you.

Simple online or phone booking process. We respond within 24 hours.

# Building Workshop

NEW

## Perfect for year 5 - adults!

Purchase our billy cart kits and have us build them with you. This two hour workshop includes unboxing, equipment checking, following procedural text, construction (with real tools) and of course racing in our elimination finals. Best of all, these carts stay with you to design, paint and/or auction off as you please.

If you are looking for an experience that will engage the most disengaged child, teen or adult, this is for you. We recommend one cart between four students.

Alternatively, we can teach your team how to run this with their students within a PD. Ask us how.

# Teacher Teambuilding PD

RESPONSIVENESS

INTEGRITY

IMPARTIALITY

ACCOUNTABILITY

RESPECT

LEADERSHIP

HUMAN RIGHTS

## Put down your planners and have some fun!

We spend more time with our colleagues than our own family. Collaboration and respect are essential for a positive school culture, moral and efficiency.

Book a fun and engaging workshop that brings out the laughter, strengthens friendships, and finds that competitive teacher (there's always one in each team).

Forget staffrooms and powerpoints. Think hands on problem solving and camaraderie.

# Secondary Incursions

## Billy Carts

Students work in teams to build their carts, before racing around the track. Build, race and dismantle against the clock! Identify team strengths and use critical thinking, leadership and perseverance. Additionally, students design and build a mini vehicle before entering it into a distance competition that relies on the power of gravity.

- Teamwork
- Wellbeing
- Critical thinking
- Design
- STEM
- Celebrations

## Shelter Building

'Survival skill' adventure at its best. Students apply STEM, budgeting and teamwork skills as they compete to see who can build the most sturdy shelter, tested against the elements of Hurricane Supreme. Teams must evaluate potential costs, benefits and risks whilst applying lateral and critical thinking.

- Teamwork
- Problem solving
- Resilience
- Budgeting
- Design
- Celebrations

## Teams, Trials & Trivia

A fast paced incursion leaving no time for disengagement. Competitive and diverse, there is something for everyone. Teams identify different strengths within their teams as they roam around, completing a range of challenges. Think escape room, amazing race and trivia night all in one.

- Wellbeing
- Teamwork
- Problem solving
- Resilience
- Respect
- Leadership

**“Today was a massive success, the students loved every second as did the teachers”**

- St Christopher's PS

# Onsite School camp alternatives

Designed for Primary and Secondary schools.

Explore our excursion and school camp alternatives. No buses, no overtime, no paperwork, and at a fraction of an excursion cost!

Children rotate through three unforgettable and innovative adventures all day long. Three qualified teachers will tailor the day

to your needs and timetable. We can return over multiple days or run this as a 4-6 week progressive experience.

Choose from the package options below, or visit our website 'packages' page to view more options.

## Outdoor Adventure (3-12)

Enjoy our Shelter Building, Billy Carts and Orienteering experiences to make for a nonstop day of outdoor adventure and collaboration.

## Wellbeing Warrior (F-6)

A targeted mindfulness package incorporating Mind & Body, Hip Hop and Team Building. Regulation of emotions, the impact of movement, and positive relationships are some key focuses.

## Confidence & Community (F-4)

Build communicative, empathic and resilience skills. Experience Team Building, Brickworks and World Dance in a day of camaraderie. Step out of comfort zones and enjoy cultural and community dress ups.

## STEAM Ahead! (F-6)

Chemical and Physical Science combined. We take your curriculum focus and select the experiments and activities perfect for your students. From construction to circuits, we will plan a tailor made, unforgettable day.

## Why book with us?

We are passionate about hands on learning.

Our experienced teachers connect prior learning with real life exploration, providing engaging and inclusive opportunities. Our mission is to inspire the thought leaders of tomorrow by encouraging critical and curious thinking. We have been providing a professional service for over 14 years.
