What you will need:

- A square piece of paper
- Coloured pencils

Follow these steps:

1. Fold the square piece of paper in half to make a rectangle. Unfold, turn the paper 90 degrees and repeat. Once upfolded, you will see four small squares.
2. Take one corner of the square and fold it down into the center.
3. Repeat this with all corners.
4. Flip your paper over. Take each corner again and fold down to the center.
5. Run your hands over all the folds to make sure they are nice and crisp!
6. Decorate your chatterbox with pictures, words and numbers.
7. Slip your thumbs and forefingers under the square tabs.
8. Give your fingers a wriggle so the chatterbox sits nicely without falling off. Move your fingers towards and away from each other. It will look like your chatterbox is talking.
9. Find a friend to play with!
